

June 2007 - News Flash 1

News Item 1 - July Section breaks revised

About six months ago the schedule for the next twelve months events was revised to adjust to the ratings of those participating in the monthly events. The major changes were:

- The creation of an U2000 section to enhance the competition of the Open section and to provide more opportunities for the U2000 players to earn points for the U2000 Championships without having to compete with the Open players for qualifying points.
- Providing four sections for all events to provide more choices for players to decide where they would like to compete.

Having now observed the impact of the section changes for several months, it was felt that the one month out of the entire years' schedule, July, where we had the lowest section break, 1850, in the second highest section, would now be a poor match for our current participants.

For these reasons we have changed the section breaks for July and will re-examine the rest of the years schedule over the next two months.

The section breaks for July are now

Open

U2000

U1700

U1400

The website has been updated with the revised information.
