

# MCC Home Page screenshot, circa 2022.

MCC's colorful home page shown below did not change substantially over the years since 2003, when the previous design was retired, and so this design served the club well for approximately twenty years.

Overview

2019 Points

The MetroWest Chess Club is a **Tuesday** night only chess club. We play a single USCF-rated game per night and the control is always **40/90, SD/30; d5**. We average 60 players each month. Our club is a great place to meet chess players of all abilities and to learn and improve by going over you games together.

**The MetroWest Chess Club**  
is in Hibernation mode

Depending on back to school and Thanksgiving infection rates and availability of boosters, we are hoping for a February 2023 restart of the club.
